Who We Are?

Founded in **2020**

HQ: **London**

Data and **technology**
consultancy

Headcount: **50**

Strong **collaborative**
approach

Our Vision

Organisations

Predictive, intelligence-
driven enterprises

Our Mission

Deliver:

- **Advanced**
- **Explainable**
- **Actionable**

Analytics solutions

CORE TECH
CONSULTING

Market Insights

Proportion of private sectors sizes in the UK 2025

Source: GOV.UK

Growth in the number of UK private sector businesses by size (2010 to 2025)

Source: GOV.UK

Market Insights

UK SME Gross Lending Breakdown (2024)

TOTAL: £62B

**Big 5 UK Banks
39.8%**

**Challenger and Specialist Banks
60.2%**

Source: British Business Bank

Best Practices

Current Problem

- Falling behind in analytics implementation
- Hidden signals of future credit demand
- Inefficient customer outreach by human relationship managers

The Vision of UP

- Becoming a predictive and proactive financial services
- Unlocking high-impact capabilities for the business and customers
- Increased operational efficiency

Financial Impacts

With our predictive model:

Potential Savings

£18M

Potential Revenue Increase

£5.5M

TOTAL
£23.5M

Solution

Our predictive model:

- Higher predictive accuracy compared to other models
- Faster training and lower computational cost
- Efficient with large datasets
- More resilient to outliers (extreme values)

Why Us

Model	Strategic shift towards operational efficiency
Efficiency Gain	success rate: 1 out of every 10 calls made by sales team —→ 1 out of every 2 calls
Improvement	connect with customer actively interested in credit

Why Us

- **Proven Track Record**

- **Strong Understanding of Customer Behaviour**
- **Diverse Team with Specialised Functions**
- **Tailored Solutions**

Implementation Plan

Explore Data

Jan 13-Jan 19

Build Model

Jan 27-Feb 2

Implement Model

Feb 8- Feb 14

Meet Up with Key Stakeholders

Jan 5-Jan 12

Clean and Transform Data

Jan 20-Jan 26

Test Model

Feb 3-Feb 7

Appendix

Slide 8: Financial Impacts Calculations:

- **Loss: £18 mil each year (Lost revenue + replacement cost + lost cross-sell revenue)**
 - **Lost revenue: £15 mil (calc: $100,000 \times £1,000 \times 15\%$)**
 - No. of customers: 100,000 (based on how many rows of customer ID on csv data)
 - Average annual revenue per customer: £1,000
 - At-risk customers per year: 15%
 - **Replacement cost for lost customers: £1.5 mil (calc: $15,000 \times £100$)**
 - Cost: £100
 - Lost customers: 15,000
 - **Lost cross-sell revenue: £1.5 mil (calc: $15,000 \times £1,000 \times 10\%$)**

Appendix

Slide 8: Financial Impacts Calculations:

- **Increase in Revenue: £5.5 mil annually (preserved revenue + cross-sell uplift)**
 - Reduction in churn (15% -> 10%, decrease by 5%)
 - Rescued customers: 5,000 (100,000 x 5%)
 - **Preserved revenue: £5 mil (5,000 x £1,000)**
 - **Cross-sell uplift: £500,000 (preserved revenue x 10%)**
- **UP net swing (loss avoided + gain created) = £23.5 mil per year**
